## Character Sheet Instructions

Version: 2.3

Last Update: 2020-05-13

This character sheet was designed to organize RPG character sheet information for easy retrieval.

Cells with a slight gray shade like the one to the left are auto-calculated and should not be modified.

The hit point scale on the right side of the first page is used to track the current hit points. Use two paperclips; one for the tens and the other for the ones to track your hit points.

To download this excel sheet or the pdf, go to : [www.perilouspursuits.com](http://www.perilouspursuits.com)
